Professional Summary

Building installations engineer and technician with 20+ years of hands-on experience across residential, commercial, and industrial projects. Successfully completed 100+ HVAC and plumbing systems, delivered projects worth over $2M, and trained 20+ apprentices into certified technicians. Proven ability to minimize downtime by 15%, cut costs by 12%, and lead teams of up to 12 staff to deliver high-quality results on time.

Skills

- HVAC system installation & troubleshooting (100+ projects)
- Plumbing (water, gas, sewage) for 50+ buildings
- Boiler room & motor room setup (downtime reduced 15%)
- Copper pipe welding & industrial welding (piping works)
- Gas pipeline design, layout & installation (AutoCAD – 25% fewer design errors)
- Preventive & corrective maintenance (18% higher efficiency)
- Fire safety & railing installations (commercial & residential)
- Pump and pipeline repair for industrial clients
- Blueprint & schematic interpretation

Work Experience

Senior Building Installation Technician | Hospital Project – Tehran, Iran

2023 – Present

- Directed installation of HVAC, plumbing, and gas systems in a 166-room hospital, ensuring regulatory compliance and patient safety standards.
- Coordinated and guided 10+ technicians, boosting team output by 18% through preventive maintenance scheduling.
- Executed fire safety systems and boiler room setups, cutting operational disruptions by 15%.

- Negotiated material sourcing that reduced project costs by 12%, saving thousands in overhead.

Lead Installation Engineer | Construction Projects – Mashhad, Iran

2011 – 2022

- Delivered plumbing, heating, and cooling systems for 50+ residential complexes and 15 commercial facilities, consistently meeting deadlines.
- Utilized AutoCAD to design and verify gas pipeline networks, achieving a 25% drop in design-related reworks.
- Implemented fire safety systems and railing installations for multi-story projects, securing full compliance with building codes.
- Supervised welding and copper pipefitting works, completing assignments 15% ahead of schedule.
- Trained and mentored 6 apprentices, all of whom became certified technicians.

Mechanical Technician | Independent Contractor – Iran & Turkey & Tehran

2003 – 2010

- Installed and maintained HVAC, piping, and boiler room systems for residential and industrial clients.
- Resolved 40+ urgent mechanical breakdowns per year, ensuring minimal downtime for facilities.
- Enhanced system reliability through troubleshooting, cutting equipment failures by 10%.

Education & Certifications

- Bachelor’s Degree in Building Installations Engineering
- Technical and Vocational Certificate in Building Installations
- Professional License – Building Installations
- Welding Certificate (industrial & copper pipes)
- Heating and Cooling Systems Certificate

Languages

Persian (Native)

Kurdish (Kermanji) – Fluent

English – Beginner (progressing ~5% weekly, IELTS preparation ongoing)
